

Odnoklassniki Setup Guide

Note: You need an Odnoklassniki developer account before configuring Odnoklassniki as an identity provider. Follow the first link on the first page of the setup wizard to set up a developer account.

1. Sign in to the Janrain Dashboard (dashboard.janrain.com).
2. Click the **Manage Engage App** button () corresponding to the property to configure.
3. On the right side of the page, click the **Provider Configuration** link. The **Provider Configuration** page is displayed.
4. In the list on the right, click **Odnoklassniki**.
5. Click **Configure**. The Odnoklassniki Setup Wizard appears.

6. Follow the second link on the setup wizard page. You will need to sign in to your Odnoklassniki account, if you are not already signed in.
7. On the Odnoklassniki Setup Wizard, click **Next**.

8. On the **Odnoklassniki** page, click **Add App**. The **App Settings** page is displayed.
9. On the **Odnoklassniki App Settings** page, select the **Application Type** boxes:
 - Web
 - HTML
 - External
10. Copy the redirect URI value from the setup wizard and paste it to the **List of permitted redirect uri** box on the **Odnoklassniki App Settings** page.
11. On the **Odnoklassniki App Settings** page, enter any other necessary values.
12. On the **Odnoklassniki App Settings** page, click **Save**. An email is sent to you that contains **Application ID**, **Public Key**, and **Secret Key** values. The key values are required to change application settings.
13. On the Odnoklassniki Setup Wizard, click **Next**.

Odnoklassniki

You should receive an email with the following values. Enter them here:

Application ID:

Public Key:

Secret Key:

[« previous](#) [Save](#)

14. From the Odnoklassniki email message, copy the **Application ID**, **Public Key**, and **Secret Key** values. Paste them to the fields on the setup wizard.
15. On the Odnoklassniki Setup Wizard, click **Save**.

Odnoklassniki is currently enabled

Application ID:

Public Key:

Secret Key:

[Modify These Settings](#)

[Close](#)

16. Click Close.

Odnoklassniki is now configured and available as an option for Social Login.
